NEW!

WRTA Tickets Passes Transfers

NEW!

The WRTA has recently upgraded fare boxes on all buses. New tickets, passes and transfers will be used with the fare boxes.

Fares have not increased.

The information below is a guide to assist you with the use of the new fare box and tickets/passes and transfers.

The new fare box is pictured below. It will use new tickets, passes and transfers with a magnetic strip on the back. The cost of tickets, passes and transfers has not changed. You may still use the exact amount in dollars and coins.

The new tickets and passes will look like the one below.

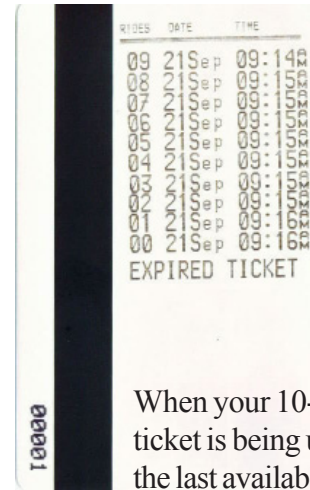

To activate and use your ticket or pass you will insert it in the new trim unit. Once activated the monthly pass can be swiped as in the past.

The 10-ride ticket will always be inserted into the trim unit to log usage.

The fare box will automatically indicate on the back of the ticket/pass when the trip was taken. Your ticket will be returned to you to use for additional rides

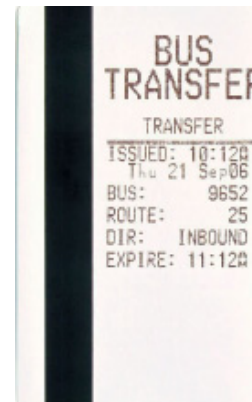

When your 10-ride ticket is being used on the last available ride, the ticket will be marked EXPIRED.

A monthly pass will now be a **31-day** pass and will not be activated until the first trip is taken. This means you no longer must use your pass within the month it was purchased.

Zones and discounts remain the same.

Below is what the new transfer ticket will look like.

You will pay for your transfer as you normally would and the box will dispense a transfer ticket with the date, time and expiration stamped on it.
